## SLASHED IN A POOLROOM RAID

**Parkhurst Agent McClellan Badly Injured in Descent on a Broadway Resort.**

A raid was made by the Society for the Prevention of Crime on a pool-room in the rear of N. 724 Broadway this afternoon. During the raid Detective McClellan, of the society, was assaulted and badly

## CAPT. DIAMOND WILL BE TRIED.

**District Attorney Believes He Has Sufficient Evidence to Convict the East Fifth Street Captain.**

With the case of Wardman Blissett off his hands, District Attorney Philbin has again taken up the investigation, begun some time ago, into the history and methods of Capt. Diamond during his two years at the East Fifth street station.

Capt. Diamond is a Republican, he has no Tammany pull, and the expectation is that he will be the next policeman to engage the attention of the Grand Jury.

Evidence against Captain Diamond in connection with the spread of vice in his precinct was gathered last spring and action against him was inaugurated when along came Lona Schmidt with direct evidence against Blissett. It was thought best to drop the Diamond case and take up that of the wardman.

Diamond's record. Copies of all of the records "appertaining to and touching on"—as Deputy Commissioner Devery would say—Capt. Dia-

mond's conduct of the East Fifth street precinct are in the hands of the District Attorney.

They were furnished at his request by Commissioner Murphy. From good authority in the District Attorney's office it may be said that the evidence thus far is believed to be strong enough to warrant the submission of it to the Grand Jury.

Capt. Diamond is charged with neglect of duty in failing to suppress disorderly resorts in his precinct. He is also charged with perjury and with the use of force. It is argued that as Blissett has been found guilty it is hardly possible that Capt. Diamond should not have known of the criminal acts of his wardman.

**Policemen Who Have Been in the Habit of Collecting Protection Money Quaking with Fear.**

It has been generally understood by the keepers of disorderly houses that it would be impossible to convict a policeman for extorting protection money. The power of the police has been regarded by these law-breakers with awe.

Now that it is shown that a policeman can be convicted, and on scant direct evidence, too, every wearer of a police uniform who has ever collected money from criminals for protection is shaking in his boots.

Capt. Heerly, now under indictment, and other policemen upon whom the hand of the law has fallen, but whose cases have not been decided, were dazed by the Blissett conviction. Will Take an Appeal. Blissett will be arraigned for sentence next Wednesday. At that time his counsel will file a certificate of reasonable doubt, which will act as a stay. Blissett will be tried and the former wardman will be free until the result of his appeal is known. It is not believed that Blissett will get a heavy sentence. He has been dismissed from the Police Department and has his right to hold office. He is also regarded as a tool and not entirely to blame.

## FLAMES ON A COTTON BARGE.

**Blaze on the Robbins as She Lies Near Steamship.**

Fire broke out at noon to-day on the cotton lighter Robbins, whose cargo was being transferred to the steamship Hungaria, lying at the new Hamburg-American line pier at Hoboken.

As soon as the flames were noticed a tug was summoned and the lighter was towed into midstream, where fire boats played on the blaze. The flames were soon under control.

The lighter had been lying between the Hungaria and the Pennsylvania, but neither vessel was touched by the fire. There was considerable excitement around Hoboken at the time, because a report went out that the pier was on fire. The cause of the blaze is unknown.

## BRAVE ACT OF POLICEMAN.

**Dennis Sullivan Injured in Stopping a Runaway.**

Policeman Dennis Sullivan nearly lost his life this afternoon while saving the lives of two boys in a runaway on Seventh avenue. The driver of John Heilmann's butcher wagon dropped one of the lines while at One Hundred and Twentieth street and Seventh avenue, and the horses, taking fright, ran madly up the street. The driver either jumped or was thrown off the seat. In the back part of the wagon were two boys. When they realized their situation they began to shout with fear.

Policeman Sullivan was on the sidewalk at One Hundred and Twenty-second street. He grasped the horses by the bits and, although dragged for a block, succeeded in stopping them. The policeman's left wrist was broken, his right leg was injured and his uniform was ruined. He was taken home, the boys were uninjured.

## BAIL FOR SHORT AND MEYERS.

**Notaries Indicted with Albert Patrick Leave the Tombs.**

John T. Milliken, of No. 98 Chouteau avenue, St. Louis, a brother-in-law of Albert T. Patrick, indicted for the murder of William William Marsh Rice, deposited \$10,000 in cash with the City Chamberlain today to secure the release from the Tombs of David Short and Morris Meyers, indicted for perjury and forgery. Mr. Milliken is a chemist and a very wealthy man.

With a certificate showing the deposit of the money Mr. Milliken went to the Criminal Courts Building. District Attorney Philbin and Justice Newburger, when shown the certificate, signed an order releasing Meyers and Short from the Tombs, where they have been incarcerated since March 20. Their share in the alleged crime is in connection with the forgery of Rice's will. Bail was fixed at \$1,500 for each of them, and they have offered numerous real-estate bonds for the amount, all of which have been refused.

## NO PAY BECAUSE SHE MARRIED.

**Mary Nichols Cox, a School Teacher, Wedded and Still Taught.**

The Corporation Council has decided that Mary Nichols Cox is not entitled to pay of \$23.58 as balance of salary and arrears alleged to be due under the Davis law as teacher in the Wadsworth High School between July 1 and September 12, 1900, knowing of the existence of a by-law which says that the marriage of any female teacher shall be taken as a resignation of her position.

"In my opinion," writes Mr. Whalen, "the claimant has no legal or just claim against the city, and it ought not to be paid."

## ARREST AFTER FIRM'S FAILURE.

**Rosenberger and Ruben Are Accused of Fraud.**

Hyman B. Ruben and Samuel M. Rosenberger, who conducted a cotton-converting business at No. 101 Wooster street and failed recently for \$100,000, were arrested today for fraudulent disposition of property and grand larceny.

The specific charge was made by William Schroeder & Co., who say that they delivered a lot of goods to the men without payment two days before they failed. After the failure was announced an effort was made to replenish the goods, but they were missing. The case was presented to the District Attorney and indictments followed. The prisoners were arraigned to plead to-day and will be up for further examination on Monday.

Did you ever get hit on the nose with a foul tip? If not, don't. There is mighty little glory in it, and less profit, even if you get while rooting for the home team and in the pursuit of duty.

The writer has been there and he knows—nose too much, for that matter. George Davis did it—the slab-sided

manager-captain of the Giants—but, there, if the writer roasts him now folks will say it was for spite.

**Forgives Davis.**  
Besides the Giants won a game yesterday, and Davis was a prime factor

in the rumpetting. So just wait till they lose again—maybe to-day. For to-day begins a few set-backs with those hustling colts from Philadelphia, and the Davises have got to put on even more steam than they let loose in Boston yesterday to be on top at the finish.

Buelow has been suspended indefinitely. The third baseman has been carried all the season while disabled with his injured leg, and great things were expected of him.

## CROKER IS COMING FOR CAMPAIGN.

**Assurance that the Leader Will Return in Time for It.**

When the alarm clock went off at 4 o'clock this morning in Far Rockaway it woke up all the clam that were sunning themselves on the beach and gave the lobster, out under the rocks, such a shock they did not recover all day.

At the first crack of the triphammer John F. Carroll hustled into his jumpers and overalls and started on a dead run for the train, which he heard whistling by the station. He grabbed the rear rail just as the cars were being pulled out, and in the flight toward the city he was strung out like a half-dozen links of waterwurst.

The hands on the big clock in Tammany Hall were just on the turn of 10:30 o'clock when Mr. Croker's deputy came in, puffing and fanning himself with his big straw hat—fully half an hour ahead of time. He grasped the hand of John McCloskey, the veteran doorkeeper of Tammany Hall, and rolled into the office. "Thomas," he said, "the secretary was there to greet him. Otherwise the wigwag was as rare as a barrack room after drill."

Carroll went direct to the ticker and skinned over the figures as if he had a half million dollars on stocks. His face was as pink as a school-kid's. In answer to an Evening World reporter's questions, he said, with a smile that would melt butter:

"There will be no statement given out to-day. As a matter of fact, there isn't anything to say. Tammany Hall is all right."

"Will Mr. Croker be home in time for the campaign?" asked the reporter.

"I cannot say a word on that subject," replied Carroll.

John McQuade, Treasurer of Tammany Hall's General Committee, held a long conference with Mr. Carroll this morning. When he left he said to the Evening World reporter:

"Mr. Croker will be here in ample time to conduct the fall campaign. Have no fears as to that. You can't go too strong on that point."

Daniel F. McMahon, Chairman of the Executive Committee of Tammany, said later:

"I cannot say just when Mr. Croker will be here, but he will positively take personal charge of the campaign."

## DEAD, SHE CAME BACK TO LIFE.

**Undertaker Had Woman's Coffin Ready, but Services Not Needed.**

With a basket and other appurtenances to a funeral, an undertaker from the firm of C. Herrick & Bro., of No. 48 East Eighty-third street, this city, arrived in Hackensack, N. J., this morning, to take charge of the body of a woman who had apparently died yesterday.

The undertaker was met at the train by Dr. Hartman, who had summoned him, with the information that the woman had returned to life.

The disappointed undertaker came back to New York on the next train, bringing his basket and burial tools with him.

The woman who died and came to life again, is named Agnes Dunkel. The cause of her death was said to be paralysis, and so thoroughly dead was she believed to have been that arrangements had been made for the removal of her body from New Jersey to New York.

Dr. Hartman bought the old Shunt farm at Montvale, a suburb of Hackensack, a short time ago. He had extensive repairs and improvements made with the intention of using the property as a home for some of his patients. The repairs were completed a week ago and on Wednesday Dr. Hartman went to Hackensack, accompanied by his patient, Agnes Dunkel.

She was taken seriously ill yesterday. There was a scurrying of servants and nurses around the old farm-house and repeated trips were made to Hackensack for medicine. Despite the strenuous efforts of the doctor, the woman died, a short time ago.
